Coaching & Mentorship

Your peer-to-peer meetings are interspersed with one-to-one coaching with a Uspire Executive coach. We have a roster of talented coaches and sector-specific mentors who bring relevant experience and methodology according to each member's specific challenges in order to help you achieve your business goals.

The focus of these sessions will be personalised - perhaps you have a singular objective you are focusing on for your business and you may be looking to work through a pathway to delivery. Or the sessions may be more holistic and support you in a range of leadership or commercial skills which together will help the impact you create.

You'll identify the areas to focus on with your coach, set goals and monitor progress as you go in these confidential and highly actionable sessions.

Peer-to-Peer Meetings

Held in person every other month, your network meetings are your opportunity to share and solve your real-time business challenges, gain new insights and perspectives, and offer up your experience to benefit others – all in a confidential and dynamic environment.

These meetings are the backbone of your membership. Each group is chaired by an accomplished business leader who will facilitate impactful guided learning. Working as a group reduces the burden and time required to solve problems.

Our members report this collective approach and the consistency of input generates truly valuable relationships and outcomes.

Keynote Sessions

As a member, you'll gain exclusive access to powerful world-class speakers. Topics including leadership, strategy, innovation, and more are led by industry pioneers, thought leaders, and change-makers.

These keynote sessions are more than just talks - they're catalysts for transformation. Each speaker brings hard-earned wisdom and actionable insights designed to challenge your thinking, spark innovation, and inspire bold action.

These powerful in-person sessions are designed to continue momentum and energise your journey with us.

Think Tanks

Engage in collaborative, discussion-led sessions that explore emerging and transformative business topics.

Held virtually, these interactive sessions are designed to spark meaningful dialogue, encourage the exchange of ideas, and deepen collective insight.

They offer a valuable opportunity to challenge conventional wisdom and explore breakthrough concepts. Tapping into collective intelligence allows you to stay ahead of the curve, inspire innovation, and refine strategic thinking in a fast-evolving business landscape.

On-demand Learning Resources

A wealth of knowledge and information is available at your fingertips. You and your team will have unlimited access to our on-demand learning library packed with valuable resources to support your growth – anytime, anywhere.

Stay one step ahead and dive into our curated collection of webinars, podcasts and blogs covering the latest in business trends, leadership, strategy and more.

LIVE Events

Twice a year we bring our community together for a full-day, in-person leadership conference. This isn't your typical business event - it's a truly energising and thought-provoking day with a mix of powerful keynote speakers, practical workshops and interactive discussions.

Beyond fresh insights and strategies to accelerate business performance, the day is also about meaningful connection. You'll be in the room with our network - fellow members, industry leaders, expert partners, and the Uspire team for prime networking opportunity.

And once business is done, we keep the conversation flowing with drinks on us at our post-event social!

Don't just take our word for it. Here's what our members have to say...
